

Product designation	VKE-340 Bevel helical gear
Sector	Ropeway industry
Area of application	Fixed grip and detachable single ropeway systems
Direction	Both
Torque	170 kNm
Gear reduction	121,6 : 1
Speed	1'300 : 11 rpm
Cable tension	450 kN
Lubrication	Combined splash/circular lubrication with electro pump
Weight	1680 kg

#### Comments / details

This bevel helical gearbox has been built in several ropeway systems in combination with planetary stages. The shiftable unit on the input shaft is used to easily disconnect the main drive (E-motor) and switch to the auxiliary engine (Diesel).
